

The Parent's Guide to Using MobyMax at Home

Accessing MobyMax

MobyMax is a self-paced, interactive platform designed to identify and close learning gaps for all students. MobyMax includes 115 modules covering all grades and subjects between kindergarten and eighth grade.

All WRSD Students have access to MobyMax through the Clever portal. Most students are already familiar with Clever, which opens as soon as they sign into a Chromebook. If students need to get back to Clever at any time, they can click the Clever extension icon in their Chrome toolbar (look for a white C in a blue box) or proceed through the steps below.

Students not using a Chromebook as well as staff may follow the steps below to log into Clever.

Go to <https://www.clever.com/in/wrsk12>

Click "Log in with Google"

Log in with your WRSD Google credentials

Users who don't have the above URL handy, can always visit <https://www.clever.com>, click the login button, and search for their school.

Google credentials can be found in the PowerSchool Parent Portal [using these directions](#).

Once logged into the Clever Portal, students just need to click the MobyMax icon shown below.

MobyMax

Please visit the [WRSD Tech Help Center](#) if you have any difficulty accessing Clever or MobyMax. There, you will find instructions as well as options for contacting district tech support, which is available throughout the summer.

Navigating MobyMax

1 Subject Library

This is where you'll find all the MobyMax learning subjects available to your child. From this screen, they can simply click on any of the icons to launch a new lesson or placement test.

2 Assignments

Your child most likely will not find any assignments here during the summer. That means you and your child are free to choose your own learning path from the library tab.

3 Fun & Games

Students can come here to cash in hard-earned game time, see the rewards they've won, and check in on their progress and growth.

4 Communication

This tab probably won't be used much over the summer but during the school year, teachers can post announcements and tasks here.

5 Customization

Students can click here to customize their MobyMax experience. They can change the color theme and add or create new friends to accompany them on their Moby journey.

Getting Started

There are all kinds of options in MobyMax, but which ones should your child focus on?

For self-paced summer work, start with the library tab. You can't go wrong with any of these subjects, but some make better starting points than others. When in doubt, we recommend choosing from this list:

- **Math**
- **Language**
- **Foundational Reading**
- **Writing Workshop**
- **Science**
- **Social Studies**

Starts with a placement test to ensure your child is working at the correct level!

Once your child has launched a lesson or placement test, they're pretty much good to go! Most lessons start with a brief instructional video before progressing to increasingly more challenging questions to test your knowledge.

Audio is an important part of the Moby experience. Make sure your volume is turned up or put on a set of headphones. If you aren't hearing everything, check the sound settings in the drop-down menu.

For more complicated problems, feel free to use the Moby scratch pad to work through multiple steps.

Getting Started

If your child is stuck on a concept, grab a hint here or click the video icon to watch the introduction again for a refresher.

Keep an eye on the progress bar—this will show you how far your child has come and how many problems they have left. If they need to step away from their lesson, we'll automatically save their progress so they can pick up right where they left off the next time they launch the subject.

When the lesson is complete, your child will see a screen like this with their results and all the rewards they earned along the way.

Need Help?

We're standing by to support you in a variety of ways, including:

- Start with the [WRSD Tech Help Center](#) for problems related to logging in or launching MobyMax
- For product support, visit the MobyMax online Help Center at <https://support.mobymax.com>
- Give us a call at (888) 793-8331
- Email any questions to support@mobymax.com
- Click the Chat with us button at the bottom of the screen to initiate a conversation with a MobyMax expert. Please note that the button will only appear if an agent is available to chat with you.

MobyMax support is available from 7:00 am - 6:00 pm Eastern Standard Time, Monday-Friday (except for holidays).
